PATTERNED CONCRETE™
"The Original"

A1 Air Conditioning and Heating - for all your A/C needs!

A third generation family owned business, A1 Air Conditioning and Heating is still family owned today by father/son team Paul and Peter Messenger. The longevity of this Burlington business can only be attributed to their total commitment to their clients' complete home comfort.

Messenger explains, "It's really very simple. We get the job done, and we get it done right. Yet even though it's simple, very few companies do it. We know our trade well, and quality is a priority to us. That's what drives the business and brings the referrals. At the end of the day, we want our clients to be happy with the work we do, and trust our expertise, top quality products and equipment, as well as our reputation for integrity."

In a business with much competition, so often it is the little things that make all the difference.

"At A1 we never subcontract installation or service, and we stand by our products and service 100%," said Messenger. "A lot of people can say that, but we mean it. We are the only Home Comfort Dealer to offer an exclusive Satisfaction Guaranteed or Money Refunded promise on every installation. If, after one year, you're not completely satisfied with the equipment we've installed, you can request to have it removed and receive a complete refund of your total purchase price."

A1 Air Conditioning also has a 10 year SuperCare® Comprehensive Warranty on parts and labour for any new equipment. Because they believe in only offering their clients the best in equipment, they solely deal with industry leading brands such as Carrier and Lennox. "We believe in brand and quality, and making sure our clients receive the best system."
