

Oakville stopover

DEREK WOOLLAM / OAKVILLE BEAVER

WARM WELCOME: Trevor Redmond stopped in at Oak-Land Ford, recently, for a rest and to pick up a \$750 donation from the dealership for his There and Back across Canada fundraiser for The Princess Margaret Hospital Foundation. On hand to welcome him were (l-r) Mike Robertson, of Oak-Land Ford, Oakville Mayor Rob Burton, and Oak-Land Ford employees Susan Shulman, Paul Shields and Eric D'Arcy. Redmond began his trek in March 2006 from Vancouver and reached Halifax in March 2007. While stopping over in Oakville recently on his return trip to Vancouver, he received a complimentary night's stay at the Oakville Holiday Inn. To learn more about his journey visit www.thereandbackcanada.com.

Tall Ship fundraiser raised \$16,000

Ralph Robinson, Chair of the Bronte Butterfly Foundation (BBF) announced the recent "Sail A Tall Ship" fundraiser for the BBF raised in excess of \$16,000 for the local charity.

A highlight leading up to this annual event is the "Early Bird" draw with the winner Karen Poole, of Oakville, receiving complimentary overnight accommodation for two at the Holiday

Inn, Oakville Centre.

For more information about the Butterfly Park & Winter Skateway or any of the special events, call the Bronte Butterfly Foundation at 905-825-2245 or 1-888-452-3333 toll free, drop by the office at 2368 Lakeshore Rd. W., Oakville L6L 1H5 or visit the website at www.butterfly.ca.

Halton Region hooks up with POSSE

Money from Halton's coffers could help keep a local youth outreach group's doors open next year.

At its meeting last week, Halton regional council approved considering a purchase of service agreement with Peer Outreach Support Services and Education (POSSE) as part of the 2008

budget process, meaning it would provide much-needed funds for the group.

POSSE, a youth-driven harm reduction and human rights initiative serving north Halton, is expected to run out of money and options for funding in March 2008 and has turned to the Region for help.

NOTICE OF COMPLETION OF CLASS ENVIRONMENTAL ASSESSMENT

Lakeshore Road at Sheldon Creek Structure Replacement

The Town of Oakville, through its consultant Hatch Mott MacDonald, has generated a preferred solution for replacing the bridge structure on Lakeshore Road West at Sheldon Creek. The preferred solution is to replace the current bridge with a larger bridge that accommodates a future walkway underpass. It is anticipated that construction of this project will take place late summer/early fall 2007.

The above project is being carried out in accordance with the Municipal Class Environmental Assessment guidelines as a Schedule B project. The Environmental Assessment (EA) was completed in June 2007. A Public Information Centre (PIC) was held on Wednesday, April 25th, 2007 to present the project to the public. Input from attendees was used in the EA and in the selection of a preferred alternative. The recommended plan for the replacement of the structure and supporting information has been documented in the EA.

The executive summary of the EA is available for review on the Town of Oakville Web site: <http://www.oakville.ca/11635.htm>.

The full EA report can be viewed at the following location:

Town of Oakville, Department of Engineering and Construction, 1225 Trafalgar Road, Oakville, Ontario. Tel: 905-845-6601

Interested persons should provide written comment on this project within 30 calendar days from the date of this notice. Comments should be directed to:

If concerns regarding this project cannot be resolved in discussion with the Town or its consultant, a person may

request that the Minister of the Environment make an order for the project to comply with Part II of the Environmental Assessment Act (referred to as a Part II order), which addresses individual environmental assessments. Requests must be received by the Minister of the Environment at the address below by August 14, 2007. A copy of the request must also be sent to Dave Johnson at the above address. If no request is received by August 14, 2007, the Town of Oakville intends to proceed with detailed design and construction as presented in the Environmental Study Report.
